

# The sixth day of Creation.

## A shape shifter cell named Human.

Evolutionary Intelligence wanted one thing more. A shape shifter made of clay and spirit, who could eventually attune with the Source of All story, deep within.

There have been about 500,000 years of human shape-shifting from Homo Erectus, the first human type creature we know about. They used fire, hunted wild animals and made simple tools. Clairvoyance and legend tells of other ancestors, Stars, Lemurians, Atlanteans. But I will start with Homo Erectus followed by Homo Sapiens who lived about 250,000 years ago. They made more efficient tools but did not survive the ice ages. As the ice age glaciers advanced for the last time, 70,000 years ago, Neanderthal man was making flint scrapers and spear heads.

**On the sixth day of creation L O V E, the great Unifier,  
brought forth a man named Jesus.**

Jesus, through trials, and resonance with the Creator, became a Christ. “*I came that they might have love*,” he said. In order to fulfil his destiny as a vibrational pathway between humanity, the Creation and Oneness, he had to embody the frequencies of Life, Death and Resurrection within. A direct communion. No separations between matter and spirit, temporal and eternal time, life and death. People could then strengthen and develop this entrainment, or not. Our earthly body dies but compassionate love consciousness is an eternal frequency.

Through awareness each person can now embody and become one with ALL THAT IS. The Creation and the Creator can be known, felt and heard from deep within. Consciousness can expand and deepen into True Self, something more than earth bound human. Only as I have surrendered, often reluctantly, to inclusive love, have I come to know this as my God Self, True Self.

I married, as did many of my generation, without becoming fully mature. ‘Babe in the woods,’ one therapist said. I had still to learn the nuances of communication, the art of relationships that thrive, the skill of child rearing, the harnessing of my talents for True Purpose and how to manage earthly responsibilities and right manifestation. After fifteen years of marriage and two beautiful children we separated, painfully.

6 in Hebrew is a link, a hook, a symbol of that which unites in order to change from one state to another. Just as rice and water can abandon their separate selves to become a more nourishing merged state. Once my marriage identity was broken I began a process of inner transformation which flowed through experiences of visionary, teacher, facilitator, artist, healer, warrior and peacemaker.
