

# The eleventh hour of Eternal Now

Driven by the forces of love the fragments of the world attract each other so that the wholesome world may come into being. Eleven represents the stage of the Creative Process of vibrational Mastery. This is the wavelength of Beauty, Inspiration, the Courage of the Heart and the Power to build new bodies. So it came to pass that the field of possibilities, fallow and waiting, drew just the right seeds unto itself for humankind's long, 'wake up' evolutionary journey to become Conscious as a Co Creator. Was this human destiny intended from the beginning? I think so.

Authentic spirituality is first about allowing your own heart and mind to be about getting "Who" right. the Is it your separate self True Self, God

changed. It's your own Who is doing perceiving? illusory, or is it your stuff?

From the planet earth to of human many aspects point to a supreme which infuses

design of the sequence maturation, of earthly life mysterious, consciousness our life with a

sacred, cosmic sense of meaning, purpose and wholeness.

**Human Beings, you and I, are designed to become a living, breathing force for higher evolution.**

At this very moment of Eternal Now, Humankind and planet earth are in a massive shift of evolution. Many unsustainable practices, thoughts and beliefs that humanity has outgrown are reluctant to give way to the new way of being human that is taking shape. Like the monarch butterfly caterpillar in the cocoon. A clash between the dying of the old story and the arising of the new story.

Be awake to the enormity of what is happening, both within each person and for Life on Earth. Caring groups, whanau of resonant frequency, continue to come together for higher purpose. For life, vitality, authenticity and True Purpose.

Last week I invited you to meditate and keep a daily gratitude journal. That will, quite naturally, unfurl more of your True Self.

This week I invite you to notice when you have been totally absorbed in an activity. This could be gardening, cooking, dancing, singing, music, dreaming, creating. And do more of that.

I also suggest that you write down two heartfelt reasons for being alive. Keep those in mind. May you be well and happy.

With love

Skye
