

## Week 18 Cocoon to Butterfly

**Humankind and Planet Earth are engaged in a butterfly process.**

+ Caterpillars consume everything and get too bloated to move.

**Our human, greedy, over-consumption consumer stage has bloated most people.**

+ The bloated caterpillar becomes still, attaches itself to a place and turns upside down.

**With inequality, environmental degradation, climate change, peak oil, social unrest, economic chaos and lack of spiritual sustenance, people lose freedom and are slowed down. Most of earth's systems are at 'tipping point.'**

+ cells appear inside the upside down caterpillar. The caterpillar cells attack these imager cells.

**This is comparable to the denial and attack of new ideas.**

+ Imager cells continue to appear inside the caterpillar. + They find each other, vibrate and clump together in a new, ever-growing morphic field.

**Pioneer thinkers, visionaries, people who charter the blueprints between the known and unknown, also grow in numbers, find each other, vibrate together in harmonic resonance and form synergy groups in the new, evolving pattern.**

The imager cells eventually overwhelm the caterpillar cells.

+ The remaining caterpillar cells turn into a nourishing broth. This now feeds the imager cells of the new pattern.

+ The world is waking up to positive change. online prayer, meditation, action groups, algae energy, transition towns, sustainable Aotearoa/New Zealand and 'harnessing the power of sun, wind, Waves and the Holy Spirit of Love' are some examples of our nourishing broth.

+ The chrysalis becomes transparent. The internet makes things transparent.

+ The new being becomes organized in its core, with a left wing and right wing together in balance.

Meditation beyond mind, strengthens an emerging, global morphic field. This could be understood as a blueprint for sustaining life. It is the attuned moral compass of the Universe with magnetic power which attracts resonance and right relationships from the mass of Life.

+ A wholly new creature, a conscious, human co-creator, attuned to all that is, knows the right time to emerge. *You do not belong to you. You belong to the Universe.* Buckminster Fuller

*Prayer mat garden*

*Transition garden*

*Fourfold way garden*

Dependence to independence to interdependence to conscious co-creation, needs love and acceptance of all parts of life as each one of us assists the immaturities to ‘grow up.’ Pleasure/pain, good/evil, Spirit/Matter, positive/negative, light/dark and the two sides of a dispute, are necessary, complementary and One. Matter is a form of Spirit and Spirit expresses itself in creation through matter and all other planes. A new Human and a new Divine Life with Earth is just around the corner. On a bright morning I can know her breathing.

*“Some day, after we have mastered the winds, the waves, the tides and gravity, we shall harness for God the energies of love. Then for the second time in the history of the world, we will have discovered fire.”* Pierre Teilhard de Chardin 1881-1955
